Triad Residential Solutions, LLC

**An agency provider assisting people
with Developmental Disabilities.**

Mission Statement

Triad Residential Solutions provides residential supports and services to individuals with intellectual disabilities. These services are driven to achieve positive outcomes emphasizing the residents' self determination, dignity, and personal development. Respecting that each person is an individual, Triad Residential Solutions will provide choice for opportunities, securing the individual's contributing role in the community.

How it began

Experienced in working for the County Board of Developmental Disabilities, Triad's co-founders couldn't understand why existing providers found it so challenging to provide quality services while placing the individual at the center of every decision. Recognizing this need, Triad was born.

Founded in 2001, Triad Residential Solutions now serves more than 100 individuals and employs over 200 employees between Lucas and Lorain counties.

Triad continues to demonstrate an inclusionary approach, encompassing all players and organizations necessary to provide total care to each individual.
